

Traffic light (Song Title)

English Version

Red light, stop! Don't you go.

Green light, go! But not too slow.

Yellow light, slow down and prepare,

To stop at the red light if it's there

Chorus English Version

Traffic lights, traffic lights,

Help us cross the street just right.

Red and yellow and green and bright,

Traffic lights, traffic lights.

English Version

Red light shines, it's time to stop.

Green light means we can hop.

Yellow light means slow it down,

Look both ways all around.

Chorus English Version

Traffic lights, traffic lights,

Help us cross the street just right.

Red and yellow and green and bright,

Traffic lights, traffic lights.

English Version

Cars and buses, bikes and feet,

Use the lights to cross the street.

Safety first, that's the rule,

Use the lights and be cool.

English Version

So when you're walking down the street,

Remember to use your feet.

And don't forget to use the lights,

So you can cross the street just right!
